A Sweet Little Story.

When Mary and I were married, we were young and foolish, for we had nothng to be married with; but Mary was delicate and I thought I could take care of her best. I knew I had a strong arm and brave heart to depend upon.

We rented a chamber and went to housekeeping. We got together a little furniture-a table, bedstead, and dishes -but our money failed us before we got the chairs. I told Mary she must turn up a tub, for I could not run in debt -no, no.

It was not long before our rich neighbor, Mrs. M-, found us out, and subplied us-half-a-dozen chairs were added to our stock. They were old ones, to be sure but answered just as well for us. I shall never forget the new face those chairs put on our sung quarters-they never looked just right before.

The tables are turned with Mrs. Hand me now-she has turned a poor wid-

Ah, now the secret is ont. It was the interest of the old chairs which maintained the old widow. She was living on the interest of a little friendly act done years before, and it sufficed for herself and her daughter. How beautiful it is to see how God b'esses the operation of his great moral law, "Love thy neighbor," an I we should oftner see it, should we look into the hidden paths of life, and find it is not riches-not self interest-nor fame that binds heart to heart. The simple power of a friendly act can do no more than they. It is these-the friendly acts. the neighborly kindness, the christian sympathy of one towards another-which the bitter sorrows, and open the well of gladness to desolate homes. We do not always see the golden links shining in the chain of human events; but they are there and happy is he who feels their gentle but irresistable influence.
